## GTU Student team became the winner in Episode 5 in Power of Shunya Television show by ET Now for their innovative project

A team of GTU students, led by **Sanket Panchal** (from Parul Institute of Engineering and Technology) became the winner of Episode 5 in Power of Shunya, television show by ET now for their innovative project .

Refer: <http://www.powerofshunya.com/TheChallengeforZero.aspx?S=2&id=10035>

Challenge for zero :

It's time to congratulate Sanket Panchal and **Sabyasachi Bhattacharya** for their successful innovation **Paddy Transplanter** which is meant to achieve Shunya labour cost, Shunya maintainence charges and Shunya health problems. A student of Parul Institute of Technology, Sanket Panchal has developed this product to introduce automation in production of crops in India.

*N.B GTU had shared this challenge [http://www.gtu.ac.in/circulars/14Apr/09042014\\_01.pdf](http://www.gtu.ac.in/circulars/14Apr/09042014_01.pdf) and appealed to all innovative final year projects to apply for this coveted recognition. We hope in the coming days, more such teams will feature in such challenges. GTU Innovation Council is committed to ensure that every single team who will do serious efforts while pursuing their IDP/UDP will be given best possible national and global exposure like the above project.*
