About GTU

Gujarat Technological University (GTU) is India's most innovative affiliating type University established by Government of Gujarat vide Gujarat Act No. 20/2007. The University, caters to the entire field of engineering, pharmacy, business studies (MBA Programmes) and Computer Applications (MCA) in Gujarat. Today the University has about 500 Colleges, 17,000 plus faculty members, 4 lakh students, a large number of Master's Programmes and a robust doctoral Programme. Gujarat Technological University has set up 14 Postgraduate Research Centres to foster research activities. In Past Few Years, GTU has taken various Initiatives such as GIC Sankul, Student Start-up Policy and a spine of six Design Engineering course are being followed by other Universities of India

About The Induction Training Programme

Pedagogy is the art of teaching. Pedagogy involves knowledge and skills which are being able to convey in easier ways that students can understand, remember and apply. The pedagogical skills can be classified into classroom management skills, presentation skills and content-related skills.

Any good teacher knows that a class full of out-of-control students is not going to learn much. A teacher's first major focus is to learn about managing behavior in his or her classroom. This set of pedagogical skills involves establishing clear rules and expectations, because students who do not know what is expected of them are more

likely to misbehave. Interactive classroom will never have such behavioral problems as all students are involved in the process .A skilled teacher is able to handle behavioral problems with a minimum amount of disruption to the learning environment. To strengthen learning about all these issues many interactive activities are included under this Programme.

The other major area of pedagogical skills is that of teaching content effectively. The teacher should have good command on content and should be able to present according to the level of the students. A good teacher will present information in ways that actively engage the students in the content part that they are learning. Good pedagogy involves not only imparting information, but also providing opportunities to apply that information.

Apart from these preparing balanced question paper and effective evaluation is also incorporated under this one day induction training Programme. It is a perfect packet of teaching attributes, GTU is offering to fresh teachers. The purpose is to address such a mass of the teachers who have never and ever undergone any kind of pedagogical training after being assigned role as a teacher.

Programme Objectives

- Orient the mass of fresh teachers at GTU affiliated colleges towards effective teaching
- To train teachers so that they can create active involvement of students in classroom
- To Improve overall classroom efficiency
- To enhance the quality of education
- To create awareness on designing balanced question paper in line to the prevailing curriculum

Key Resource Person

Dr.Dilip Ahir, Associate Dean for GTU Zone-4 has an excellent command and good hand on experience on training about developing pedagogical skills, soft skills and behavioural aspect of human being. He had contributed greatly in conducting pilot

project of GTU's Contributory personality development (CPD) programme. He has trained more than 2000 teachers and around 3000 students in the area of soft skills. For GTU he has designed and delivered very innovative one day induction training program (ITP) for fresh teachers of Engineering degree/diploma colleges. Being a chief resource person of ITP he has delivered 5 programs in the year of 2015-16 at GTU under CeTEPU-21. The participants have always shown overwhelming response towards his ITP programmes.

Programme Content

Module 1	Understanding human behavior
	<ul style="list-style-type: none"> • Model of human behavior • Three Personality types • Self-evaluation to be an Assertive personality

	Communication skills
Module 3	How To Prepare and Deliver an Effective Lecture?
	<ul style="list-style-type: none"> • Advantages and limitations of lecture method • Organizing and planning Active & Interactive Lecture • Techniques for effective delivery, ICT Inclusion for on class and off the class support.
	Module 4
	Evaluation Methods and Formulating an effective Question paper
Module 5	<ul style="list-style-type: none"> • Evaluation & Assessment • Understanding Types and levels of questions • Formulating Balanced Question Paper
	Question & Answer, Feedback and Valedictory.

Who Should Attend?

The Programme is useful for the Young fresh teachers in the field of Diploma/Degree Engineering who have joined the GTU affiliated institute

- This Programme is offered to **fresh young teachers only** (having teaching experience of less than 3 years)
- Participant has to bear travelling expenditure for said Programme and **No TA/DA will be provided** for attending the said Programme.
- Colleges can do online registration for their fresh teachers which will be entertained on **first come first serve basis**.
- College Director/Principal/HOD is appealed to **motivate their fresh teachers** for participation.

GTU Certificate

All participants of the Induction Training Programme on **'Active, Interactive & Effective Teaching'** will be awarded a GTU certificate on successful completion of the Programme.
