## One day Student Training program on SAP

**Date: 22/10/2016**

**Time: 10:00 am to 5:00pm**

### Address:

Gujarat Technological University,  
Block No.6, L.D.C.E Boys Hostel  
Campus, Nr. OLD Passport Office,  
Navrangpura, Ahmedabad

**Learning Objective:**

The ABAP language was originally used by developers to develop the SAP R/3 platform. It was also intended to be used by SAP customers to enhance SAP applications – customers can develop custom reports and interfaces with ABAP programming. The language was geared towards more technical customers with programming experience.

SAP stands for Systems, Applications and Products in data processing

SAP R/3: SAP upgraded R/2 to R/3. SAP R/3 is the client/server version of the software and it is 3 tier architecture in which three layers Presentation, Application and data base are installed in three server /system.

**Advantages of SAP :**

SAP software manages business management tasks in modules that all work together in one system by sharing information. Promoting consistent practice across an entire division

No duplicate data, Automate Project Monitoring and Multi dimensional and flexible reporting Standardization of business processes Make Planning, Scheduling, Tracking and Management easier leaving more time for you to perform value-added work Ability to provide clear cut job roles with authorizations Enabling integration with e-commerce Cost Savings on overheads such as Stationery, File Storage, etc
